User Manual

July 2013

Please read this user's manual carefully before use.

CONGRATULATIONS!

Thank you for your purchase of this hipstreet product and we hope you enjoy using it. Please visit our website at www.hipstreet.com.
Please ensure that you fully read and understand the information within this user manual prior to using your product. It is advised that you keep this user manual in a safe place for future reference. We sincerely hope that this high quality product offers you endless hours of entertainment.

Important safety precautions

- Always follow these basic safety precautions when using the unit. This will reduce the risk of product damage and personal injury.
- Do not disassemble, repair or modify the unit by yourself. Refer servicing to qualified personnel.
- Do not dispose of the unit in extreme heat to avoid explosion.
- Keep the unit away from direct sunlight or heat source.
- Do not expose the unit to rain or moisture to avoid any malfunction.
- Do not use the unit in a rather dry environment to avoid static.
- Never apply heavy impact on the unit like dropping it or placing it on a magnet.
- Clean only with a dry cloth. Make sure the unit is turned off and not connected to anything before cleaning. Do not use liquid cleanser. Use only a damp cloth if necessary.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
NOTE 1: This equipment has been tested and found to comply with the limits for a Class C digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

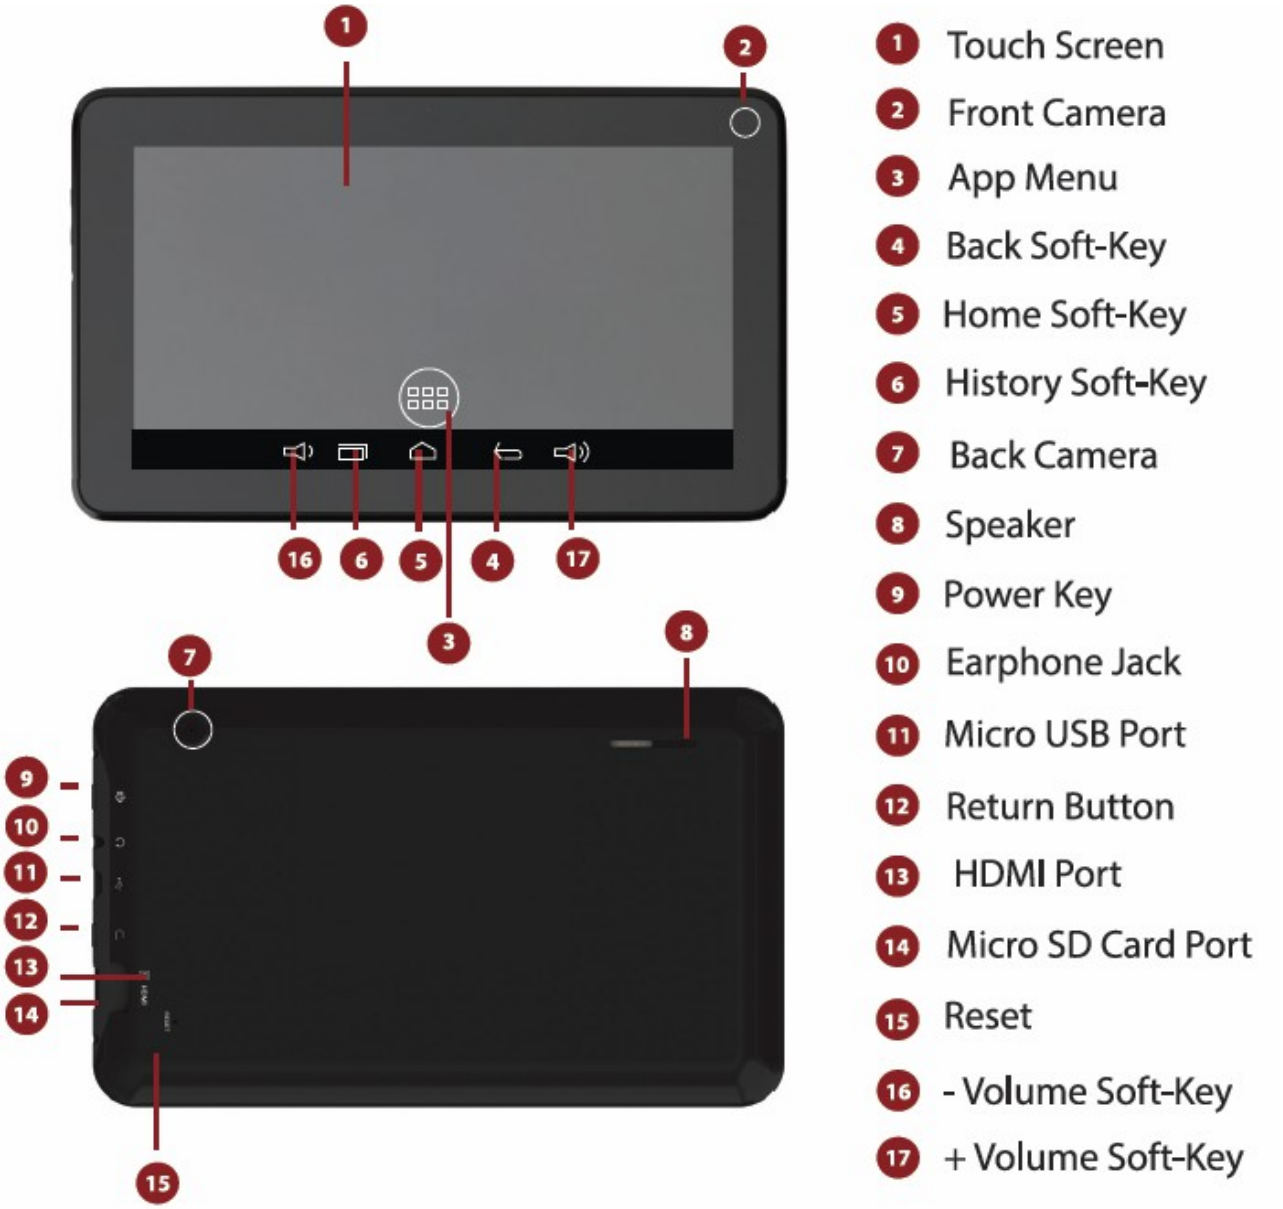
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

This device complies with Canadian ICES-003 and RSS-210

Chapter One – Overview

1-1 Appearance

1-2 Buttons/Ports



1-3 Power ON/OFF

Power ON

Long press the power button for about 3-4 seconds to power ON the tablet.

Power OFF (Shut down)

Press and hold the power button for about 3-4 seconds, press OK when prompted to shut down.

Chapter Four: System Settings

Tap in the application menu to enter the system settings interface.

4-1 Sound

This menu allows you to set different volume levels for music and games, ringtones and notifications and alarms. You can also select the default sounds for different notifications.

4-2 Wi-Fi

Local wireless network settings

Slide the switch to the ON position

to allow the tablet to search for wireless networks in your area.

If the local area networks have this sign beside it, this means the networks do not require a password, and can be connected to directly.

This sign represents the network has been encrypted, therefore it would require a password before the connection can be established.

You can choose the network you want from the list by tapping on it. Tapping the < advanced > option under allows you to view the < IP > and < MAC address >

4-3 Display

Brightness

The user can adjust the brightness of the screen manually.

Wallpaper setting
In the wallpaper setting, the user can set wallpaper or live wallpaper they desire; wallpapers can be chosen from your gallery or from pre-loaded samples.

Sleep
This option allows the user to set how long it will take before the tablet screen shuts off to save battery life.

Font size
You can set the font size, respectively they are: Small, Normal, Large, and Huge.

4-4 Application (Apps)

Manage the running services and access rights management/development.

Opera / **1Mobile –** These apps provides you with a marketplace for all your application needs. Here you can find thousands of apps for you to download directly onto your tablet including gaming and social media.

HS Cloud – This is a cloud service provided free of charge to include 10GB of free storage. With this app you could upload and share you favorite Audio/Video/Docs/Files and have access to them anywhere, anytime.

Application Management
In this setting, it is easy to manage and delete some applications that have been installed.

Tap the < Downloaded >, < On SD Card >, < Running > or < All > tabs to scan for programs in that category.

Tap on an application, to see its information and to clear the cache, uninstall, clear the default value or force stop.

4-5 Date & Time

Time setting

You can use automatic time settings from the network you are connected to, or you can manually adjust the time zone, set a specific date and time and display 12/24 hour formats.

4-6 Language and Input

Language
You can choose the language from the many preset languages available

Input method
Input methods can be set by user, and you can add custom words to the dictionary.

5-2 FAQ

Reset this device

(1) In the event that the device freezes, you can force the device to shut down by holding the **Power button** for 15 seconds.

I cannot connect to the Internet using Manual Setup.

***Answer*:** Ensure you have used *Menu* → *Save* when exiting the advanced settings page.

I can see my access point name, but I cannot connect to the Internet.

***Answer*:** If your access point (AP) supports multiple access points at a time, you may have to connect the device using WPA encryption and not WEP. Please refer to your AP device manual for setup details.

My Micro-SD card is not being detected and/or shows *damaged SD card*.

***Answer*:** Please re-insert the Micro-SD card and try again. If this does not work, please restart the device again with Micro-SD card inserted.

My system freezes when installing / removing applications.

***Answer*:** This may be caused by a memory handling error. Use *Force Close* icon in application manager before removing the software. If the system continues to freeze, please restart your device for a complete clearing of all running processes.

My device freezes while powering-on.

Answer: This may be caused by a failure in reading the Micro-SD card. Please turn off the device and power-on again. Also, please ensure that the card is fully inserted. Alternatively, please try to start the device with the Micro-SD card removed.

Can I manually change the screen orientation?

Answer: Yes. Please check in "*Display*" in "*Settings*", Touch "*Auto-rotate screen*" to toggle.

What is the life of the battery?

***An*swer:** On average use, a complete charge will give up to 4-15 hours battery life (depending on usage) with Wi-Fi turned on and connected.

Can I amend the Operating System or code on the device myself?

Answer: No. Any misuse of the tablet in this way will void the warranty.

I have my Micro-SD card inserted, but I am unable to use applications that require a Micro-SD card.

Answer: The device checks the first Micro-SD card as the default slot. Please insert the Micro-SD card to the first slot when using the voice recording, and applications such as SlideMe.

The touch-screen is not very responsive

Answer: As the touch-screen is capacitive, please use your finger-tips for best results. Do not use any objects and remove any gloves before use.
